

# Participants Needed for: Research studying sex and gender differences in lower limb amputees

## Study Purpose:

Study differences in the perspectives and priorities of males and females with lower limb amputations, aiming to improve quality of life and health care outcomes for lower limb amputees.

## General Eligibility Criteria:

- Have single, lower limb amputation
- Have ability to walk with prosthesis
- Be between 19 and 90 years old
- Not have other conditions severely affecting ability to walk
- Not have osseointegrated prosthetic implant

## Interested?

Contact Tess Carswell  
[tmrc@uvic.ca](mailto:tmrc@uvic.ca)

## Study Details:

- Participation is entirely online, involving:
  - Online survey
  - Follow-up interview on Zoom
- Time commitment: 3 hours
- Participants will be compensated
